## NEWTON FAST international version

---

NEWTON FAST is a lightweight, ergonomic fall-arrest harness that can be quickly donned. It is equipped with padded shoulder straps and FAST LT PLUS automatic buckles on the leg loops, allowing the harness to be donned with both feet on the ground, without loss of adjustment. Its textile sternal attachment point and metal and textile dorsal attachment points provide tremendous versatility. It is equipped with fall indicators and is certified to North American, European and Russian standards.

---

**Short Description** Quick-donning fall arrest harness

---

**Selling Points**

- Lightweight, ergonomic design:
  - anatomical design is close-fitting yet allows optimal freedom of movement
  - textile sternal attachment point, lightweight and abrasion resistant
  - anodized aluminum dorsal attachment point for great durability
  - textile dorsal attachment point for attaching a self-retracting fall-arrest system
  - padded shoulder straps are widely spaced to reduce neck chafing
  - allows installation of a LIFT spreader for descending in an upright position
- Quick-donning and easy to use:
  - harness dons with both feet on the ground, thanks to the leg loops and sternal strap equipped with FAST LT PLUS automatic buckles Fastening and unfastening is quick and easy, without loss of adjustment, even with gloves, and the unlocking system limits the risk of accidental unfastening
  - shoulder straps equipped with self-locking DOUBLEBACK buckles for quick and easy adjustment
  - two equipment loops and two slots
- The international version has a fall indicator: a red strap appears after a fall on the sternal or dorsal attachment point to indicate that the harness should be retired

---
